COMPENSATION DISCUSSION AND ANALYSIS

The Company’s approach to executive compensation has been to provide suitable compensation for executives that is internally equitable, externally competitive and reflects individual achievement. The Company attempts to maintain compensation arrangements that will attract and retain highly qualified individuals who are able and capable of carrying out the objectives of the Company.

The Company’s compensation arrangements for the Named Executive Officers may, in addition to salary, include compensation in the form of bonuses and, over a longer term, benefits arising from the grant of stock options. Given the stage of development of the Company, compensation of the Named Executive Officers to date has emphasized salary and stock option awards to attract and retain Named Executive Officers and, to a certain extent, to conserve cash. This policy may be re-evaluated from time to time depending upon the future development of the Company and other factors which may be considered relevant by the board of directors of the Company (the “**Board**”).

During fiscal 2011, (i) the current Chief Executive Officer of the Company was paid a salary of \$193,085 and received option based awards valued at \$141,000, for his service from April 27, 2011 to December

31, 2011; (ii) the former Chief Executive Officer of the Company was not paid a salary for his service to April 27, 2011; and (iii) the Chief Financial Officer of the Company was not paid a salary although the Company expensed \$80,026 to Marrelli and MSSI for the services of the current Chief Financial Officer, and the Chief Financial Officer also received option based awards valued at \$43,300. The Company's objective in determining the compensation of its Named Executive Officers is to reward management for their efforts, while seeking to conserve cash given current market conditions and ongoing commitments. In the future, the compensation strategy of the Company may also include rewarding management for such matters as exploration success, market success, share performance, and the successful implementation of strategic plans. The Compensation Committee of the Board establishes and reviews the Company's overall compensation philosophy and its general compensation policies with respect to the Chief Executive Officer and other executive officers, and approves the salary, bonus, options and other benefits for such officers. In determining compensation matters, the Compensation Committee may consider a number of factors, including the Company's performance, the value of similar incentive awards to officers performing similar functions at comparable companies, the awards given in past years and other factors it considers relevant. With respect to any bonuses or incentive plan grants which may be awarded to executive officers in the future, the Company has not established any objective criteria and will instead rely upon any recommendations of the Compensation Committee and discussions at the Board level with respect to the above-noted considerations and any other matters which the Compensation Committee and Board may consider relevant on a going-forward basis, including the cash position of the Company.

Existing options held by the Named Executive Officers at the time of subsequent option grants are taken into consideration in determining the quantum or terms of any such subsequent option grants. Options have been granted to directors, management, employees and certain service providers as long-term incentives to align the individual's interests with those of the Company. The size of the option awards is in proportion to the deemed ability of the individual to make an impact on the Company's success.

COMPENSATION OF DIRECTORS

Effective December 2, 2011, the Board approved payment of a fee of \$5,000 to each independent director of the Company per quarter for his services as a director. Directors are also reimbursed for travel and other out of pocket expenses incurred in attending directors' and shareholders' meetings, and are entitled to receive compensation to the extent that they provide other services to the Company at rates that would be charged by such directors for such services to arm's length parties. During the year ending December 31, 2011, no such compensation was paid to any director, other than an aggregate of \$131,250 which was paid to Keith Spickelmier in consideration of his ongoing services to the Company which are focused on strategic planning, business development, capital markets, public relations and investor relations activities, and \$10,000 which was paid to each of Bruno Maruzzo and Lee Pettigrew for consulting services.

Directors are also entitled to participate in the stock option plan of the Company. As of October 19, 2012, the Company had outstanding options to purchase 16,245,000 Common Shares, of which 2,950,000 have been granted to directors. See "Summary of Stock Option Plan".

The purpose of the Option Plan is to attract, retain and motivate directors, officers, employees and other service providers of the Company by providing them with the opportunity, through share options, to acquire a proprietary interest in the Company and benefit from its growth. The options granted under the Option Plan are non-assignable and may be granted for a term not exceeding five years.

STATEMENT OF CORPORATE GOVERNANCE PRACTICES

National Policy 58-201 of the Canadian Securities Administrators has set out a series of guidelines for effective corporate governance (the “**Guidelines**”). The Guidelines address matters such as the constitution and independence of corporate boards, the functions to be performed by boards and their committees and the effectiveness and education of board members. National Instrument 58-101 (“**NI 58-101**”) of the Canadian Securities Administrators requires the disclosure by each listed corporation of its approach to corporate governance with reference to the Guidelines as it is recognized that the unique characteristics of individual corporations will result in varying degrees of compliance.

Set out below is a description of the Company’s approach to corporate governance in relation to the Guidelines.

The Board of Directors

NI 58-101 defines an “independent director” as a director who has no direct or indirect material relationship with the Company. A “material relationship” is in turn defined as a relationship which could, in the view of the board of directors of the Company (the “**Board**”), be reasonably expected to interfere with such member’s independent judgement. The Board is currently comprised of five members, two of which the Board has determined are “independent directors” within the meaning of NI 58-101.

Messrs. Manner and Spickelmier are not considered to be “independent” as the result of their respective roles as executive officers of the Company, and Mr. MacMicken is not considered to be “independent” as a result of his previous service as an officer of a subsidiary of the Company.

Messrs. Fagerheim and Maruzzo are considered independent directors since they are independent of management and free from any material relationship with the Company. The basis for this determination is that, since the beginning of the fiscal year ended December 31, 2011, none of the independent directors have worked for the Company, received remuneration from the Company in excess of \$75,000 in any 12 month period within the last three years, or had material contracts with or material interests in the Company which could interfere with their ability to act with a view to the best interests of the Company.

The Board believes that it functions independent of management. To enhance its ability to act independent of management, the Board may meet in the absence of members of management and the non-independent directors or may excuse such persons from all or a portion of any meeting where a potential conflict of interest arises or where otherwise appropriate. The Board did not hold any meetings of the

independent directors in the absence of members of management and the non-independent directors during the fiscal year ended December 31, 2011.

Directorships

Certain of the directors of the Company are also directors of other reporting issuers (or equivalent) in a jurisdiction or a foreign jurisdiction as follows:

<u>Name of director</u>	<u>Other reporting issuer (or equivalent in a foreign jurisdiction)</u>
Doug Manner	None
Keith Spickelmier	None
Bruno Maruzzo	Pinetree Capital Ltd., Critical Outcome Technologies Inc., Strike Graphite Corp., Hamilton Thorne Limited, Diagnos Inc.
Ron MacMicken	Tolima Gold Inc., Santa Maria Petroleum Inc.
Grant Fagerheim	Whitecap Resources Inc., PRD Energy Inc.

Orientation and Continuing Education

While the Company currently has no formal orientation and education program for new Board members, sufficient information (such as recent annual reports, annual information forms, prospectuses, proxy solicitation materials, technical reports and various other operating, property and budget reports and corporate presentations) is provided to any new Board member to ensure that new directors are familiarized with the Company's business and the procedures of the Board. In addition, new directors are encouraged to visit and meet with management on a regular basis. The Company also encourages continuing education of its directors and officers, where appropriate, in order to ensure that they have the necessary skills and knowledge to meet their respective obligations to the Company.

Ethical Business Conduct

The Board has adopted a formal Code of Ethics for directors, officers and employees. In order to ensure compliance with the Code of Ethics and that directors exercise independent judgement, the Board has assumed responsibility for approving transactions involving the Company and any "related party" (as that term is defined in Multilateral Instrument 61-101 Protection of Minority Security Holders in Special Transactions), and monitoring the Company's compliance with strategic planning matters. The Board expects management to operate the business of the Company in a manner that enhances shareholder value and is consistent with the highest level of integrity. In addition, the Board has adopted a Disclosure Policy and an Insider Trading and Blackout Policy.

Nomination of Directors

The full Board performs the functions of a nominating committee with responsibility for the appointment and assessment of directors. The Board believes that this is a practical approach at this stage of the Company's development and given the small size of the Board.

While there are no specific criteria for Board membership, the Company attempts to attract and maintain directors with business knowledge and a particular knowledge of oil and gas exploration, development and production or other areas (such as finance) which provide knowledge which would assist in guiding the officers of the Company. As such, nominations tend to be the result of recruitment efforts by management of the Company and discussions among the directors prior to the consideration of the Board as a whole.

Compensation

The Board has established a compensation committee which reviews on an annual basis the adequacy and form of compensation of directors to ensure that the compensation of the Board reflects the responsibilities, time commitment and risks involved in being an effective director. See “Compensation Discussion and Analysis”.

Currently, the Company pays a fee of \$5,000 per quarter to each independent director for his service on the Board and other committees, as described under “Compensation of Directors”. All directors are also eligible to participate in the Option Plan. See “Compensation of Directors” and “Summary of Stock Option Plan”.

Other Board Committees

The Board currently has no standing committees other than the Audit Committee and the Compensation Committee. See also “Audit Committee”.

Assessments

The Board has not implemented a formal process or means to regularly assess the effectiveness of the Board, its committees or individual directors. However, effectiveness is informally assessed on an ongoing basis based on the ability of the directors to fulfill their duties and responsibilities in a timely and efficient manner. The relatively small size of the Board allows for the contributions of an individual director to be informally monitored by the other Board members, in light of the individual’s business and governance strengths and the specific purpose, if any, for which the individual was originally nominated to the Board. The Company feels its corporate governance practices are appropriate and effective, given its relatively small size and the nature of its operations. These practices allow the Company to operate efficiently, with simple checks and balances that control and monitor management and corporate functions without excessive administrative burden or delay.

The following table sets out the name of each of the Nominees, all positions and offices in the Company held by each of them, the principal occupation or employment of each of them for the past five years, the year in which each was first elected a director of the Company and the approximate number of Common Shares that each has advised are beneficially owned or subject to his or her control or direction (directly or indirectly):

3. Appointment of Auditors

The directors propose to nominate MSCM LLP, the present auditors, as the auditors of the Company to hold office until the close of the next annual meeting of shareholders. MSCM LLP was first appointed auditors of the Company in December, 2011, prior to which Schwartz Levitsky Feldmann LLP acted as auditors of the Company since November 2006. Attached hereto as Schedule "C" are the change of auditor notice prepared by the Company and the acknowledgement letters of each of MSCM LLP and Schwartz Levitsky Feldmann LLP, in connection with the change of auditors of the Company effected in December, 2011.

In the past, the directors have negotiated with the auditors of the Company on an arm's length basis in determining the fees to be paid to the auditors. Such fees have been based on the complexity of the matters in question and the time incurred by the auditors. The directors believe that the fees negotiated in the past with the auditors of the Company were reasonable and in the circumstances would be comparable to fees charged by other auditors providing similar services.

In order to appoint MSCM LLP, Chartered Accountants as auditors of the Company to hold office until the close of the next annual meeting, and authorize the directors to fix the remuneration thereof, a majority of the votes cast at the Meeting must be voted in favour thereof.

The management representatives named in the attached form of proxy intend to vote in favour of the appointment of MSCM LLP, Chartered Accountants as auditors of the Company and in favour of authorizing the directors to fix the remuneration of the auditors, unless a shareholder specifies in the proxy that his or her Common Shares are to be withheld from voting in respect of the appointment of auditors and the fixing of their remuneration.
