1. Nature of operations and going concern

Sintana Energy Inc. (formerly Mobius Resources Inc.) ("Sintana" or the "Company") is a public Canadian oil and gas exploration company listed on the TSX Venture Exchange, with offices in Toronto and Calgary, Canada; Plano, Texas; and Bogota, Colombia. The trading symbol of the Company changed from SNN to SEI effective August 10, 2015, subsequent to the Business Combination (as defined below). The Company is targeting assets in Colombia's Magdalena Basin. The Company's exploration strategy is to acquire, explore, develop and produce superior quality assets with significant reserve potential. The primary office of the Company is located at 36 Toronto Street, Suite 1000, Toronto, Ontario, Canada, M5C 2C5.

On August 6, 2015, Sintana completed a business combination (the "Business Combination") with Sintana Holdings Corp. (formerly Sintana Energy Inc.) ("Sintana Holdings"). The Business Combination was treated as a reverse acquisition where Sintana Holdings acquired Sintana. All per share information has been retrospectively adjusted to give effect to the exchange ratio as part of the reverse takeover transaction.

Sintana is at an early stage of development and as is common with similar exploration companies, it raises financing for its property acquisition and exploration activities. Sintana has incurred losses in the current and prior periods. For the three months ended March 31, 2016, the Company incurred a loss of \$783,137 and had an accumulated deficit of \$82,900,969. Results for the three months ended March 31, 2016 are not necessarily indicative of future results. Sintana had working capital deficit of \$463,462 at March 31, 2016 (December 31, 2015 - working capital of \$192,561). As a result of the close of the Business Combination, Sintana will fund its exploration and operating expenses from its available cash for the following twelve months starting from December 31, 2015.

These unaudited condensed interim consolidated financial statements have been prepared on a basis which contemplates that the Company will continue in operation for the foreseeable future and will be able to realize its assets and discharge its liabilities in the normal course of business. Accordingly, they do not give effect to adjustments that would be necessary should the Company be unable to continue as a going concern. The certainty of funding future exploration expenditures and availability of additional financing sources cannot be assured at this time. These uncertainties cast significant doubt as to the Company's ability to continue as a going concern and, accordingly, the ultimate use of accounting principles applicable to a going concern. The Company's ability to continue as a going concern is dependent upon obtaining additional financing and eventually achieving profitable production.

2. Significant accounting policies

Statement of compliance

The Company applies International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB"). These unaudited condensed interim consolidated financial statements have been prepared in accordance with International Accounting Standard 34 - Interim Financial Reporting. Accordingly, they do not include all of the information required for full annual financial statements required by IFRS as issued by the IASB.

The policies applied in these unaudited condensed interim consolidated financial statements are based on IFRSs issued and outstanding as of May 27, 2016, the date the Board of Directors approved these financial statements. The same accounting policies and methods of computation are followed in these unaudited condensed interim consolidated financial statements as compared with the most recent annual audited consolidated financial statements as at and for the year ended December 31, 2015. Any subsequent changes to IFRS that are given effect in the Company's annual audited consolidated financial statements for the year ending December 31, 2016 could result in restatement of these unaudited condensed interim consolidated financial statements.

2. Significant accounting policies (continued)

Recent accounting pronouncements

(i) IFRS 9 – Financial Instruments (“IFRS 9”) was initially issued by the IASB in November 2009 and issued in its completed version in July 2014 and will replace IAS 39 - Financial Instruments: Recognition and Measurement (“IAS 39”). IFRS 9 uses a single approach to determine whether a financial asset is measured at amortized cost or fair value, replacing the multiple rules in IAS 39. The approach in IFRS 9 is based on how an entity manages its financial instruments in the context of its business model and the contractual cash flow characteristics of the financial assets. Most of the requirements in IAS 39 for classification and measurement of financial liabilities were carried forward unchanged to IFRS 9. The new standard also requires a single impairment method to be used, replacing the multiple impairment methods in IAS 39. IFRS 9 will be effective for annual periods beginning on or after January 1, 2018. Earlier application is permitted. The Company will adopt the standard on its effective date and is currently assessing the impact of this pronouncement.

(ii) IFRS 16 - Leases (“IFRS 16”) was issued on January 13, 2016 to require lessees to recognize assets and liabilities for most leases. For lessors, there is little change to the existing accounting in IAS 17 - Leases.

The IASB issued its standard as part of a joint project with the Financial Accounting Standards Board (“FASB”). The FASB has not yet issued its new standard, but it is also expected to require lessees to recognize most leases on their statement of financial position.

The new standard will be effective for annual periods beginning on or after January 1, 2019. Early application is permitted, provided the new revenue standard, IFRS 15, has been applied, or is applied at the same date as IFRS 16.
