### 1. Nature of operations and going concern

Sintana Energy Inc. ("Sintana" or the "Company") is a public Canadian oil and gas exploration company listed on the TSX Venture Exchange, with offices in Toronto, Canada; and Dallas, Texas. The trading symbol of the Company is SEI. The Company is targeting assets in Colombia's Magdalena Basin. The Company's exploration strategy is to acquire, explore, develop and produce superior quality assets with significant reserve potential. The primary office of the Company is located at The Canadian Venture Building, 82 Richmond Street East, Toronto, Ontario, Canada, M5C 1P1.

Effective July 27, 2017, the Company completed an internal reorganization pursuant to which (i) it incorporated a new subsidiary named Sintana Resources Corp. ("Sintana Resources") under the laws of the Province of Ontario; and (ii) all of the issued and outstanding shares of each of Sintana Energy Finance Inc. and 1873520 Ontario Inc., which were formerly held by Sintana Holdings Corp. ("Sintana Holdings"), were transferred to Sintana Resources for nominal consideration. Subsequently, effective August 1, 2017, all of the issued and outstanding shares of Sintana Energy Exploration & Production Inc., which were formerly held by Sintana Holdings, were also transferred to Sintana Resources for nominal consideration.

On October 10, 2017, the Company signed an agreement to sell all of the issued and outstanding common shares of its subsidiary, Sintana Holdings, and its Colombian branch, Sintana Energy Inc. Sucursal Colombia, for gross proceeds of US\$200,000.

Sintana is at an early stage of development and as is common with similar exploration companies, it raises financing for its property acquisition and exploration activities. Sintana has not incurred any operating income in the current and prior periods. For the three months ended March 31, 2018, the Company incurred loss of \$426,315 and had an accumulated deficit of \$86,025,309. Sintana had a working capital deficit of \$3,283,627 at March 31, 2018 (December 31, 2017 - working capital deficit of \$2,862,318).

These unaudited condensed interim consolidated financial statements have been prepared on a basis which contemplates that the Company will continue in operation for the foreseeable future and will be able to realize its assets and discharge its liabilities in the normal course of business. Accordingly, they do not give effect to adjustments that would be necessary should the Company be unable to continue as a going concern. The certainty of funding future exploration expenditures and availability of additional financing sources cannot be assured at this time. These uncertainties cast significant doubt as to the Company's ability to continue as a going concern and, accordingly, the ultimate use of accounting principles applicable to a going concern. The Company's ability to continue as a going concern is dependent upon obtaining additional financing and eventually achieving profitable production.

### 2. Significant accounting policies

#### Statement of compliance

The Company applies International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB"). These unaudited condensed interim consolidated financial statements have been prepared in accordance with International Accounting Standard 34 - Interim Financial Reporting. Accordingly, they do not include all of the information required for full annual financial statements required by IFRS as issued by the IASB.

The policies applied in these unaudited condensed interim consolidated financial statements are based on IFRSs issued and outstanding as of May 28, 2018, the date the Board of Directors approved these financial statements. The same accounting policies and methods of computation are followed in these unaudited condensed interim consolidated financial statements as compared with the most recent annual audited consolidated financial statements as at and for the year ended December 31, 2017, except as noted below. Any subsequent changes to IFRS that are given effect in the Company's annual audited consolidated financial statements for the year ending December 31, 2018 could result in restatement of these unaudited condensed interim consolidated financial statements.

### 2. Significant accounting policies (continued)

#### *New standard adopted during the period*

#### **IFRS 9 - Financial Instruments ("IFRS 9")**

On July 24, 2014, the IASB issued the completed IFRS 9 ("IFRS 9 (2014)") to come into effect on January 1, 2018 with early adoption permitted.

IFRS 9 (2014) includes finalized guidance on the classification and measurement of financial assets. Under IFRS 9, financial assets are classified and measured either at amortized cost, fair value through other comprehensive income ("FVOCI") or fair value through profit or loss ("FVTPL") based on the business model in which they are held and the characteristics of their contractual cash flows. IFRS 9 largely retains the existing requirements in IAS 39 - Financial Instruments: Recognition and Measurement ("IAS 39"), for the classification and measurement of financial liabilities.

The Company adopted IFRS 9 in its consolidated financial statements on January 1, 2018. Due to the nature of its financial instruments, the adoption of IFRS 9 had no impact on the opening accumulated deficit balance on January 1, 2018. The impact on the classification and measurement of its financial instruments is set out below.

All financial assets not classified at amortized cost or FVOCI are measured at FVTPL. On initial recognition, the Company can irrevocably designate a financial asset at FVTPL if doing so eliminates or significantly reduces an accounting mismatch.

A financial asset is measured at amortized cost if it meets both of the following conditions and is not designated at FVTPL:

- It is held within a business model whose objective is to hold the financial asset to collect the contractual cash flows associated with the financial asset instead of selling the financial asset for a profit or loss;
- Its contractual terms give rise to cash flows that are solely payments of principal and interest.

All financial instruments are initially recognized at fair value on the unaudited condensed interim consolidated statement of financial position. Subsequent measurement of financial instruments is based on their classification. Financial assets and liabilities classified at FVTPL are measured at fair value with changes in those fair values recognized in the unaudited condensed interim consolidated statement of loss and comprehensive loss for the period. Financial assets classified at amortized cost and financial liabilities are measured at amortized cost using the effective interest method.

The following table summarizes the classification and measurement changes under IFRS 9 for each financial instrument:

<b>Classification</b>	<b>IAS 39</b>	<b>IFRS 39</b>
Cash and cash equivalents	FVTPL	FVTPL
Accounts receivable and other assets, excluding HST	Loans and receivables (amortized cost)	Amortized cost
Accounts payable and other liabilities	Other financial liabilities (amortized cost)	Amortized cost
Deferred compensation	Other financial liabilities (amortized cost)	Amortized cost

The original carrying value of the Company's financial instruments under IAS 39 has not change under IFRS 9.

### 2. Significant accounting policies (continued)

#### Recent accounting pronouncements

IFRS 16 – Leases (“IFRS 16”) was issued in January 2016 and replaces IAS 17 – Leases as well as some lease related interpretations. With certain exceptions for leases under twelve months in length or for assets of low value, IFRS 16 states that upon lease commencement a lessee recognizes a right-of-use asset and a lease liability. The right-of-use asset is initially measured at the amount of the liability plus any initial direct costs. After lease commencement, the lessee shall measure the right-of-use asset at cost less accumulated depreciation and accumulated impairment. A lessee shall either apply IFRS 16 with full retrospective effect or alternatively not restate comparative information but recognize the cumulative effect of initially applying IFRS 16 as an adjustment to opening equity at the date of initial application. IFRS 16 requires that lessors classify each lease as an operating lease or a finance lease. A lease is classified as a finance lease if it transfers substantially all the risks and rewards incidental to ownership of an underlying asset. Otherwise it is an operating lease. IFRS 16 is effective for annual periods beginning on or after January 1, 2019. The Company is evaluating the impact of adoption and expects to report more detailed information in its financial statements as the effective date approaches.

IFRIC 23 – Uncertainty Over Income Tax Treatments (“IFRIC 23”) was issued in June 2017 and clarifies the accounting for uncertainties in income taxes. The interpretation committee concluded that an entity shall consider whether it is probable that a taxation authority will accept an uncertain tax treatment. If an entity concludes it is probable that the taxation authority will accept an uncertain tax treatment, then the entity shall determine taxable profit (tax loss), tax bases, unused tax losses and credits or tax rates consistently with the tax treatment used or planned to be used in its income tax filings. If an entity concludes it is not probable that the taxation authority will accept an uncertain tax treatment, the entity shall reflect the effect of uncertainty in determining the related taxable profit (tax loss), tax bases, unused tax losses and credits or tax rates. IFRIC 23 is effective for annual periods beginning on or after January 1, 2019. The Company does not expect IFRIC 23 to have a material impact on the financial statements.

#### 13. Contingencies

(a) Office lease agreement

An operating lease agreement for office space in Calgary, Alberta commencing on March 2012 and ending on February 28, 2017 was held by a subsidiary of the Company prior to the business combination in 2015. The annual average basic rent obligation was approximately \$84,000, payable in monthly installments of approximately \$7,000. Since September 2015 (post the business combination), only one payment has been made. The lessor has filed a suit against the Company seeking full payment of the alleged liability plus reimbursement of the costs incurred to pursue the matter. Management believes that the Company is not liable for this rent and therefore no provision for any potential payments has been recorded.
